WELCOME ON BOARD

When selecting a destination for your international exchange, you want nothing but the very best: a top, internationally recognized business school; a dynamic, leading-edge environment; an overall friendly and exciting location where you can learn and grow. HEC Montréal offers you all that... and so much more.

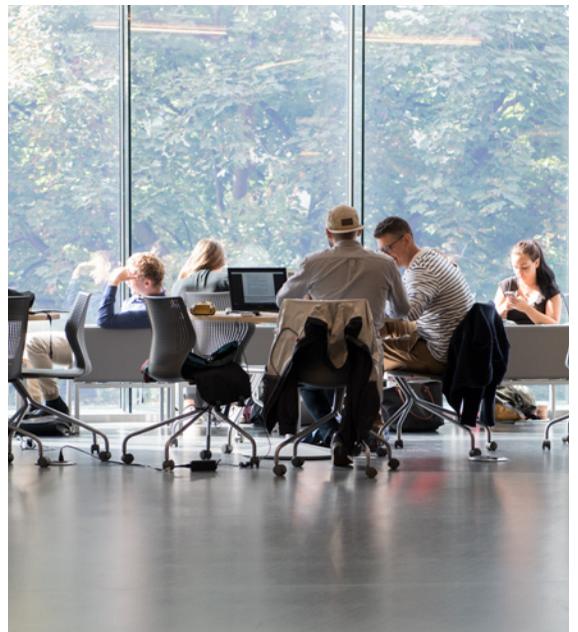

Located in Montréal, in Canada's province of Québec, this world-class business school has a long history of excellence and innovation. Founded in 1907, HEC Montréal was Canada's first business school and, to this day, continues in its path of leadership. For instance, it was the first North American business school to hold the three most prestigious accreditations in its field: AACSB International, AMBA and EQUIS. This triple recognition is a reflection of the School's innovative approach to teaching, its first-class programs and its dedication to high-quality research.

MONTRÉAL FRIENDLY, EXCITING, COSMOPOLITAN

A description of HEC Montréal would not be complete without a quick tour of the city around it. Montréal is a warm and friendly place, at the crossroads of two continents: decidedly North American in the way it conducts its business, its way of life is definitely of European inspiration. Large enough to boast all the excitement of major city, it still retains the relaxed atmosphere usually enjoyed in much smaller towns. Actually an island in the middle

of the St. Lawrence river, Montréal offers countless opportunities for outdoor activities, including some 400 km of bicycle trails and huge parks where you can walk or run in the summer, enjoy cross-country skiing or skating in the winter, or simply be close to nature. But the best news is that life in Montréal comes with a surprisingly reasonable price tag: it is in fact one of North America's least expensive cities—not to mention one of the safest—yet it offers an exceptional quality of life.

CANADA: A PROGRESSIVE SOCIETY

With a population of only 35 million—mostly concentrated along the border with the United States—Canada offers friendly cities and breathtaking landscapes. A parliamentary democracy and a constitutional monarchy, the country has English and French as its two official languages.

Montréal is part of the province of Québec. The largest of Canada's 10 provinces—approximately three times the size of France or Texas—Québec is predominantly French-speaking in a mostly English-speaking continent. This uniqueness is part of its appeal and makes it a one-of-a-kind destination

in North America. With an abundance of forests and lakes, the province is also a wonderful playground for nature lovers. Tolerant and open, Quebecers are ardent defenders of human rights and equality between men and women and vigorously oppose any type of discrimination.
